

# LeMax Built-In

*...new from Germany*

Compact and versatile, the LeMax built-in offers every possibility and FAST! You can grill food directly on its large glass-ceramic surface, plus you can cook with pots and pans. The LeMax is designed with a 15 step electronic control for precise heat regulation up to 440°C and a lock setting for child safety. Fantastic for all your cooking needs and super easy to clean.

LeMax is ideal for small apartment kitchens or Alfresco dining areas/balconies.

## The unique FEATURES of LeMax Built-In:

- Fast usability due to short pre-heat time
