

# LeMax Portable

*...new from Europe*

LeMax is an electric 'cook on' glass-ceramic grill/griddle with a large square cooking surface. LeMax is completely portable and a healthy alternative or addition to the traditional barbeque. Glass-ceramic is a non-porous smooth finish resulting in a simple clean up. The high surface temperature makes it ideal for cooking steaks, fish, and vegetables. The LeMax is also great for eggs, omletts, toasted sandwiches, pancakes and even pizza can be cooked directly on its glass-ceramic surface. The LeMax is also equipped with a low setting thermostat so that it can be used as a warming plate. Use LeMax inside or outdoors on your deck or balcony, you can even take LeMax on holiday!

## The unique FEATURES of LeMax :

- Fast usability due to short pre-heat time
- For direct surface cooking as a grill/griddle
- Can be used as a cook-top with pots and pans
- For use as a warming plate
- Less fat needed for healthy food preparation
- Energy efficient heating elements
- Even heat distribution
- Large 12 Step LED indicator display
- Locking device for child safety
- Reaches high temperatures of 440°C/820°F
- 12 month warranty
